	Pages		Pages
January	1-32	July	189-220
February	33-60	August	221-252
March	61-92	September	253-280
April	93-124	October	281-312
May	125-156	November	313-344
June	157-188	December	345-376

- Analyses of WAMFLEX project, 30
- Annual duration of any rainfall intensity; M. C. Jackson, 243
- Association of British Climatologists—new Directory, 60, 376
- Atkins, Margaret J., and Jones, M. V.; An experiment to determine the value of satellite infra-red spectrometer (SIRS) data in numerical forecasting, 125
- Atkins, N. J.; Forecasting convective thunderstorms, hail and shower activity in the Midlands, 17, *correction*, 156
- Atlantic Tropical Experiment of the Global Atmospheric Research Programme, 89
- Awards to Civil Airline Pilots, *photograph facing* 17
- Baker, N. W.; *obituary*, 124
- Barrett, E. C. and Harris, R.; An improved satellite nephanalysis, 9, *photograph facing* 16
- Biennial cycle in the number of fine days in the Netherlands; C. J. E. Schuurmans, 24
- Blair-Fish, J. A.; An investigation into spells of wet and dry days by region and season for Great Britain, 360
- British infra-red detectors in NASA weather satellites, 29
- Brownscombe, J. L.; Automatic air quality monitoring systems (T. Schneider), *review*, 185
- Building Climatology Section set up, 30
- Bywater, R. E.; *obituary*, 188
- Carmichael, A. W.; *obituary*, 252
- Catchpole, A. J. W.; A spring singularity in global radiation beneath overcast skies in the Canadian prairies, 330
- Caton, P. G. F.; Arizona climate 1931-1972, revised second edition (W. D. Sellers and R. H. Hill, editors), *review*, 120
- Caughey, S. J., Chorley, L. G. and Readings, C. J.; The development of the atmospheric boundary layer: three case studies, 349
- Changes in the area of Arctic Sea Ice, 1966 to 1974; R. M. Sanderson, 313
- Chorley, L. G., Caughey, S. J. and Readings, C. J.; The development of the atmospheric boundary layer: three case studies, 349
- Climatological Atlas of the United Kingdom, 90
- Colquhoun, J. R.; Comments on 'The tornadoes of 26 June 1973', *letter*, 343
- Computer Output Microfilm in the production of the *Monthly Weather Report*, 31
- Computerized radiosonde equipments, 31
- Computer quality control of daily and monthly rainfall data; R. J. Shearman, 102
- Conference on 'Engineering Hydrology Today', London, 18-20 February 1975; R. Murray, 217
- Construction of 500-millibar charts for the eastern North Atlantic-European sector from 1781; J. A. Kington, 336
- Contract for data buoy, 30
- Cook, A. H.; New Science in the solar system (P. Stubbs), *review*, 248
- Co-operation in motorway fog studies, 29
- COVOS/COMESA Conference, 29
- Crabtree, J.; Air pollution and atmospheric diffusion (M. E. Berlyand, editor), *review*, 306
- Craddock, J. M. and Weller, M. J.; Reflections on some unusual years, 61, *letter* from J. Glasspoole, 249, *reply* by J. M. Craddock, 251
- Crouch, E. J.; Award of Imperial Service Medal, 124
- Daily synoptic weather maps from the 1780s: a research project of synoptic climatology; J. A. Kington, 33
- Daily synoptic weather maps from the 1780s, 279
- Davies, J. W.; The relationship between minimum temperatures over different ground surfaces, 78, *correction*, 156
- Development of the atmospheric boundary layer: three case studies; L. G. Chorley, S. J. Caughey and C. J. Readings, 349
- Dial-the-weather Service for Lake District visitors, 123
- Distribution of rainfall over subcatchments of the River Dee as a function of synoptic type; C. A. Nicholas and T. W. Harrold, 208
- Dixon, R.; Display and analysis of spatial data (J. C. Davis and M. J. McCullagh), *review*, 309
- Dutton, M. J. O.; Optimum averaging time of wind reports for aviation, 231
- Dutton, M. J. O.; Vertical wind shear in the lowest 600 metres at Shoeburyness, 260
- Ebdon, R. A.; The quasi-biennial oscillation and its association with tropospheric circulation patterns, 282

- Ebdon, R. A. and Oxley, W. J.; A note on tropical storms in the Arabian Sea, October to December 1972, 227, *photographs between* 236, 237
- Electrical phenomena observed at night in the tropics from a Hercules aircraft; N. Lamb, 56
- Estimates of the probability of occurrence of high rates of snowfall; R. N. Hardy, 142
- Estimation of the life span of atmospheric motion systems by means of atmospheric energetics; Gy. Koppány, 302
- Experiment to determine the value of satellite infra-red spectrometer (SIRS) data in numerical forecasting; Margaret J. Atkins and M. V. Jones, 125
- Extreme temperatures over the United Kingdom for design purposes; J. S. Hopkins and K. W. Whyte, 94
- Fifth Long Ashton Symposium on Environmental Effects on Crop Physiology, University of Bristol, 13-16 April 1975; Marjory G. Roy, 275
- Flood Studies Conference, 123
- Folland, C. K.; The use of the lithium chloride hygrometer (dew-cell) to measure dew-point, 52, *photograph facing* 46
- Forecasting convective thunderstorms, hail and shower activity in the Midlands; N. J. Atkins, 17, *correction*, 156
- Gadsden, M.; Physics of mesospheric (noctilucent) clouds (J. Ikauniefs), *review*, 87
- Gilchrist, A.; Dynamic meteorology (P. Morel), *review*, 59
- Glasspoole, J.; Reflections on some unusual years, *letter*, 249
- Gloyne, R. W.; An introduction to agrotopoclimatology, *WMO Technical Note No. 133* (L. B. MacHattie and F. Schnelle), *review*, 118
- Godson, W. L.; awarded IMO Prize, 312
- Goldie, E. C. W.; *obituary*, 376
- Grant, K.; The warming and moistening of cold air masses by the sea, 1
- Griffiths, R. F.; Observation and analysis of an ice hydrometeor of extraordinary size, 253, *photographs between* 266, 267, *correction*, 376
- Groves (L. G.) Memorial Prizes and Awards; 57, *photographs between* 46, 47
- Hallisey, Mary and McIntosh, D. H.; Noctilucent clouds over western Europe and the Atlantic during 1974, 180
- Hardy, R. N.; Estimates of the probability of occurrence of high rates of snowfall, 142
- Harris, R. and Barrett, E. C.; An improved satellite nephanalysis, 9, *photograph facing* 16
- Harrold, T. W. and Nicholass, C. A.; The distribution of rainfall over subcatchments of the River Dee as a function of synoptic type, 208
- Hawson, C. L.; An objective aid for estimating the night minimum temperature of a concrete road surface, *letter*, 155
- Heastie, H.; Atmospheric thermodynamics (J. V. Iribarne and W. L. Godson), *review*, 308
- Heat thunderstorm after a fine hot day, *photograph facing* 328
- Hercules participates in GATE, 29
- Heavy rainfall over northern England in July 1973; M. J. Prior, 108
- Hide, Dr R.; Institute of Physics Award, 92
- Hide, R.; Special merit promotion to Chief Scientific Officer, 343
- Hopkins, J. S.; Climatology from satellites (E. C. Barrett), *review*, 88
- Hopkins, J. S. and Whyte, K. W.; Extreme temperatures over the United Kingdom for design purposes, 94
- Hopkins, J. S.; Review of urban climatology 1968-1973, *WMO Technical Note No. 134* (T. R. Oke), *review*, 276
- Human intervention in the operational objective analysis; F. Singleton, 323
- Hunt, G. E.; Solar activity and related interplanetary and terrestrial phenomena (Volume I of the Proceedings of the First European Astronomical Meeting, Athens 4-9 September 1972) (J. Xanthakis, editor), *review*, 119
- Improved satellite nephanalysis; R. Harris and E. C. Barrett, 9, *photograph facing* 16
- Institute of Physics Award to Dr R. Hide, 92
- Intensity-time profiles of high-intensity rainfall; J. R. Norbury and W. J. K. White, 221
- International Meteorological Organization Prize, 312
- Investigation into spells of wet and dry days by region and season for Great Britain; J. A. Blair-Fish, 360
- Jackson, M. C.; Annual duration of any rainfall intensity, 243
- Jones, M. V. and Atkins, Margaret J.; An experiment to determine the value of satellite infra-red spectrometer (SIRS) data in numerical forecasting, 125
- Kaye, J.; *obituary*, 124
- Keddie, A. W. C.; Atmospheric diffusion—the dispersion of windborne material from industrial and other sources (F. Pasquill), *review*, 277
- Kington, J. A.; Daily synoptic weather maps from the 1780s: a research project of synoptic climatology, 33
- Kington, J. A.; The construction of 500-millibar charts for the eastern North Atlantic-European sector from 1781, 336
- Koppány, Gy.; Estimation of the life span of atmospheric motion systems by means of atmospheric energetics, 302
- Lamb, H. H.; World climatology—an environmental approach (J. G. Lockwood), *review*, 86

- Lamb, N.; Electrical phenomena observed at night in the tropics from a Hercules aircraft, 56
- Laser radar installation at Beaufort Park, 30
- Lerwick anemograph records 1957-70 and the offshore industry; H. C. Shellard, 189
- Lightning at Bracknell at midnight on 8 August 1975, looking eastwards, *photograph facing* 329
- Limbirt, D. W. S.; Energy fluxes over polar surfaces. Proceedings of the IAMAP/IAPSO/SCAR/WMO Symposium, Moscow, 3-5 August 1971, *WMO Technical Note No. 129* (S. Orvig), *review*, 186
- Llano, R. del and Nuñez, J. M.; On a method for analysing atmospheric oscillations, 297
- McIntosh, D. H. and Hallissey, Mary; Noctilucent clouds over western Europe and the Atlantic during 1974, 180
- Mason, P. J.; Atmospheric waves (T. Beer), *review*, 154
- Mason, P. J.; Waves in the atmosphere (E. E. Gossard and W. H. Hooke), *review*, 340
- Meteorological Magazine*: price increases, 219
- Meteorological Office awards to captains and navigators of civil airlines, 28
- Meteorological Office Experimental Site, near Bracknell, *photographs between* 16, 17
- Miller, D. E.; Advances in satellite meteorology 2 (N. K. Vinnichenko and A. G. Gorelik, editors), *review*, 342
- Murray, R.; Conference on 'Engineering Hydrology Today', London, 18-20 February 1975, 217
- New Joint Financing Agreement on North Atlantic Ocean Stations, 90
- New Meteorological Office Dry Spell Service, 187
- New network of North Atlantic Ocean Stations comes into operation, 311, *photographs between* 296, 297
- Nicholass, C. A.; A note on the accuracy of rainfall forecasting using existing techniques in the River Dee Catchment area, 345
- Nicholass, C. A. and Harrold, T. W.; The Distribution of rainfall over subcatchments of the River Dee as a function of synoptic type, 208
- Noctilucent clouds over western Europe and the Atlantic during 1974; D. H. McIntosh and Mary Hallissey, 180
- Norbury, J. R. and White, W. J. K.; Intensity-time profiles of high-intensity rainfall, 221
- Note on the accuracy of rainfall forecasting using existing techniques in the River Dee Catchment area; C. A. Nicholass, 345
- Note on tropical storms in the Arabian Sea, October to December 1972; R. A. Ebdon and W. J. Oxley, 227, *photographs between* 236, 237
- Nuñez, J. M. and Llano, R. del; On a method for analysing atmospheric oscillations, 297
- Objective aid for estimating the night minimum temperature of a concrete road surface, *letter from* C. L. Hawson, 155
- Observation and analysis of an ice hydrometeor of extraordinary size; R. F. Griffiths, 253, *photographs between* 266, 267, *correction*, 376
- On a method for analysing atmospheric oscillations; R. del Llano and J. M. Nuñez, 297
- Optical phenomena at sunset on 17 December 1973 at Bracknell, Berks., observed through bands of cirrus and cirrostratus, *photograph facing* 297
- Optimum averaging time of wind reports for aviation; M. J. O. Dutton, 231
- Oxley, W. J. and Ebdon, R. A.; A note on tropical storms in the Arabian Sea, October to December 1972, 227, *photographs between* 236, 237
- Painter, H. E.; Preliminary results from a gravimetric rain-gauge, 69, *correction*, 188
- Petterssen, Professor S., C.B.E.; *obituary*, 93
- Pollution sampling over the North Sea, 31
- Preliminary results from a gravimetric rain-gauge; H. E. Painter, 69, *correction*, 188
- Pressure data for the British Gas Corporation, 30
- Prior, M. J.; Heavy rainfall over northern England in July 1973, 108

PUBLICATIONS RECEIVED

- Climatologica* 4: The etesian winds: proof of the stability of the climate of Greece (G. C. Livadas), 89
- Meteorologica* 33: Sequences of rain and drought in Thessaloniki II (V. E. Angouridakis), 89
- Meteorologica* 34: On a certain effect of mountain masses on aerial photography (E. N. Patmios and G. C. Livadas), 89
- Meteorologica* 35: Wind in Thessaloniki—Greece (G. C. Livadas and Char. S. Sahsamanoglou), 89
- Meteorologica* 36: Nature of the diurnal variation of atmospheric pressure in Thessaloniki (T. J. Makroyannis), 219
- Meteorologica* 37: Cooling power and weather types in Thessaloniki (Chr. J. Balafoutis), 219
- Meteorologica* 38: On the effect of ground relief upon sunshine duration on Mount Olympus—Greece (G. C. Livadas and V. A. Semertzidis), 219
- Meteorologica* 39: On the annual variation of air temperature in Thessaloniki (A. A. Flocas and A. Arseni-Papadimitriou), 219
- Meteorologica* 40: Contribution to the study of air temperature in Thessaloniki (A. Arseni-Papadimitriou), 219

- Meteorologika* 41: Soil temperature in Thessaloniki—Greece (G. C. Livadas and Yan. Ath. Goutsidou), 310
- Meteorologika* 42: Weather types and atmospheric pressure in Thessaloniki—Greece (T. J. Makroyannis), 310
- Meteorologika* 43: On the annual variation of air temperature in Larissa—Greece (A. A. Flocas), 310
- Observations Météorologiques de Thessaloniki 1973, 89
- Quasi-biennial oscillation and its association with tropospheric circulation patterns; R. A. Ebdon, 282
- Readings, C. J., Chorley, L. G. and Caughey, S. J.; The development of the atmospheric boundary layer: three case studies, 349
- Reflections on some unusual years; J. M. Craddock and M. J. Weller, 61, letter from J. Glasspoole, 249, reply by J. M. Craddock, 251
- Relationship between minimum temperatures over different ground surfaces; J. W. Davies, 78, corrections, 156
- RETIREMENTS**
- Briggs, J., 123
- Clarkson, L. S., 279
- Craddock, J. M., 220
- Illsley, P. F., 91
- Kirk, T. H., 187
- REVIEWS**
- Advances in satellite meteorology 2 (N. K. Vinnichenko and A. G. Gorelik, editors); review by D. E. Miller, 342
- Air pollution and atmospheric diffusion (M. E. Berlyand, editor); review by J. Crabtree, 306
- Analytical methods in planetary boundary-layer modelling (R. A. Brown); review by F. B. Smith, 28
- Arizona climate 1931–1972, revised second edition (W. D. Sellers and R. H. Hill, editors); review by P. G. F. Caton, 120
- Atmospheric diffusion—the dispersion of windborne material from industrial and other sources (F. Pasquill); review by A. W. C. Keddie, 277
- Atmospheric thermodynamics (J. V. Iribarne and W. L. Godson); review by H. Heastie, 308
- Atmospheric waves (T. Beer); review by P. J. Mason, 154
- Automatic air quality monitoring systems (T. Schneider); review by J. L. Brownscombe, 185
- Climatology from satellites (E. C. Barrett); review by J. S. Hopkins, 88
- Display and analysis of spatial data (J. C. Davis and M. J. McCullagh, editors); review by R. Dixon, 309
- Dynamic meteorology (P. Morel, editor); review by A. Gilchrist, 59
- Energy fluxes over polar surfaces. Proceedings of the IAMAP/IAPSO/SCAR/WMO Symposium, Moscow, 3–5 August 1971, *WMO Technical Note* No. 129 (S. Orvig); review by D. W. S. Limbert, 186
- Introduction to agrotoclimatology, *WMO Technical Note* No. 133 (L. B. MacHattie and F. Schnelle); review by R. W. Gloyne, 118
- New Science in the solar system (P. Stubbs); review by A. H. Cook, 248
- Physics of drop formation in the atmosphere (Yu. S. Sedunov); review by W. T. Roach, 341
- Physics of mesospheric (noctilucent) clouds (J. Ikaunieks, editor); review by M. Gadsden, 87
- Prior, M. J.; The heavy rainfall over northern England in July 1973, 108
- Review of urban climatology 1968–1973, *WMO Technical Note* No. 134 (T. R. Oke); review by J. S. Hopkins, 276
- Science and the weatherman (Trevor Baker); review by P. G. Wickham, 307
- Solar activity and related interplanetary and terrestrial phenomena (Volume I of the Proceedings of the First European Astronomical Meeting, Athens, 4–9 September 1972) (J. Xanthakis, editor); review by G. E. Hunt, 119
- Waves in the atmosphere (E. E. Gossard and W. H. Hooke); review by P. J. Mason, 340
- World climatology—an environmental approach (J. G. Lockwood); review by H. H. Lamb, 86
- Roach, W. T.; Physics of drop formation in the atmosphere (Yu. S. Sedunov), review, 341
- Roy, Marjory G.; Fifth Long Ashton Symposium on Environmental Effects on Crop Physiology, University of Bristol, 13–16 April 1975, 275
- Royal Meteorological Society Award to the Director-General, 156
- Sanderson, R. M.; Changes in the area of Arctic Sea Ice, 1966 to 1974, 313
- Schuurmans, C. J. E.; A biennial cycle in the number of fine days in the Netherlands, 24
- Shearman, R. J.; Computer quality control of daily and monthly rainfall data, 102
- Shellard, H. C.; Lerwick anemograph records 1957–70 and the offshore industry, 189
- Shipboard pressure measurements during JASIN 1972; N. Thompson, 157, correction, 280
- Singleton, F.; Human intervention in the operational objective analysis, 323
- Smagorinsky, Dr Joseph; awarded IMO Prize, 156

- Smith, C. V.; World Meteorological Organization Commission for Agricultural Meteorology (CAgM) Sixth Session—Washington, October 1974, 152
- Smith, F. B.; Analytical methods in planetary boundary-layer modelling (R. A. Brown), *review*, 28
- Spring singularity in global radiation beneath overcast skies in the Canadian prairies; A. J. W. Catchpole, 330
- Stagg, Dr J. M.; *obituary*, 281, *photograph facing* 281
- Study of climatic variation, 31
- Symposium on Weather Radar and Water Management, 252
- Thompson, N.; Shipboard pressure measurements during JASIN 1972, 157, *correction*, 280
- Towering cumulus and cumulonimbus, *photograph facing* 296
- Trainor, J. J.; *obituary*, 92
- Transfer of radiation work, 31
- Transliteration of Cyrillic alphabets, 280
- Use of the lithium chloride hygrometer (dew-cell) to measure dew-point; C. K. Folland, 52, *photograph facing* 46
- Vertical wind shear in the lowest 600 metres at Shoeburyness; M. J. Dutton, 260
- WAMFLEX project analyses, 30
- Warming and moistening of cold air masses by the sea; K. Grant, 1
